

## Orange Electronic New Stage — Orange Electronic USA Launched

As there are more and more demands and orders from the North America market, Orange Electronic International Group (Orange Int'l) launches Orange Electronic US (Orange US) to offer the best local service to these tremendous demands. Orange US office and warehouse is located in Detroit MI. Orange electronic US can provide the on-time quickly delivery and the best after-sales service. In addition, Orange electronic US engineers are real-time available to solve problems for TPMS products and provide the total solution for tire store industry in aftermarket.

Orange Int'l is the first and the only non-OE replacement sensor manufacturer for OE sensors now. Thus, Orange US is only company that can offer non-OE replacement sensors in North America region. Orange US will serve customers from United States of America, Canada, Mexico and the nations of the Caribbean. From now on, please contact Orange US for North America demands.

Thanks for all North America demands and contacts to Orange Int'l in the past. Orange US will offer the same and the soonest real-time service to all your requests.
